Dana's Heavy-Duty Spicer Life Series® SPL Driveshafts

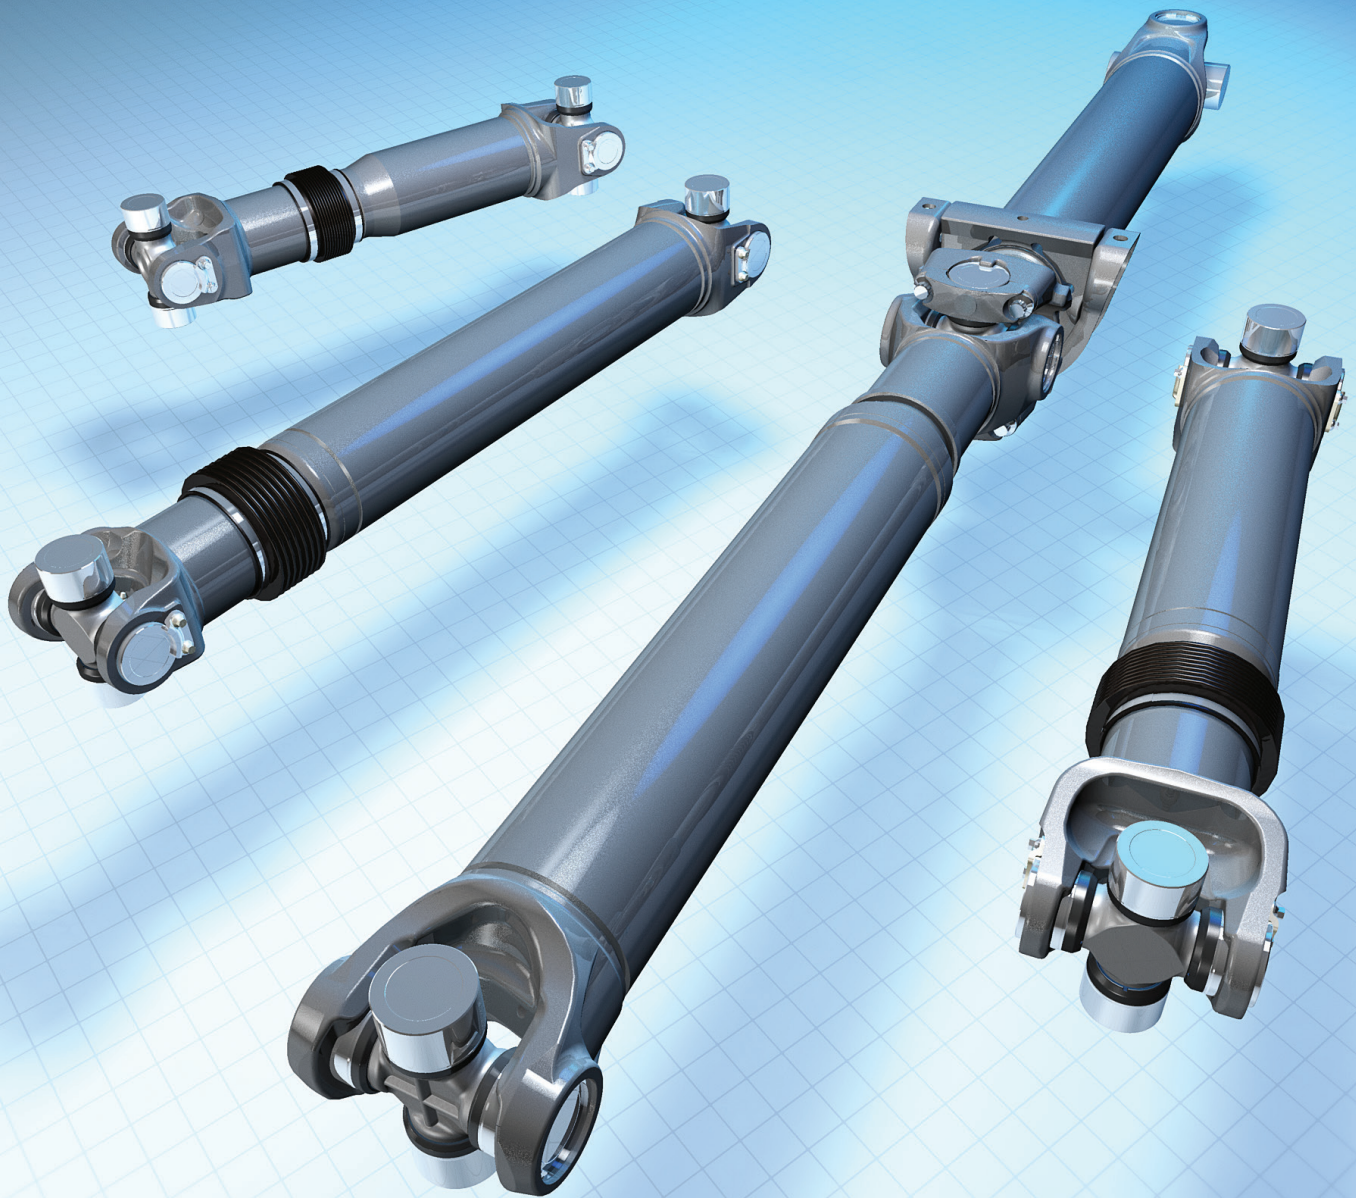

The durable, efficient solution.

Spicer Life Series®

No other U-joints are better equipped to meet the needs of today's high efficiency trucks.

Slowing down the engine and selecting faster axle ratios enables trucks to run more economically, but only when equipped with the right driveshaft.

Dana's SPL Series of U-joints are designed to withstand the increased stress that high efficiency truck configurations place on the driveline, and are equipped with High Power Density™ (HPD™) features that extend product life and designed to outperform the competition.
